Baker Tilly Capital Is Exclusive Financial Advisor To Electronic Cable Specialist In Recent Sale To Carlisle Interconnect Technologies

Baker Tilly Capital, LLC is pleased to announce that it served as the exclusive financial advisor to Electronic Cable Specialists, Inc. (ECS) on its recent sale to Carlisle Interconnect Technologies, a subsidiary of Carlisle Companies Incorporated (NYSE:CSL).

ECS is a leading designer and manufacturer of electrical and structural products and services for the aviation, medical, and industrial markets. “ECS maintains an award winning reputation for satisfying the demanding requirements of its international customer base,” said Thomas Walker, Managing Director of Baker Tilly Capital. “Carlisle Interconnect’s acquisition of ECS combines engineering and manufacturing expertise from two exceptional companies and this should be of significant benefit to their customers and prospects.”

“This is further evidence of the fact that transactions can still get closed in a challenging economic environment,” said Walker. “Strategic buyers with strong balance sheets and financial buyers with available capital remain extremely selective in making acquisitions, but niche businesses with proven business models remain extremely attractive,” Walker said. “We are pleased to have been a part of the team that brought these two global companies together.”

Terms of the transaction were not disclosed.
