His primary practice areas are auditing and accounting consulting for both public and private companies, Sarbanes-Oxley compliance, financial modeling and budgeting, and mergers and acquisitions.

Specific experience

- > Experience on numerous audits of both public and private companies in industries such as:
 - > Construction contractors
 - > Real estate developers
 - > Manufacturing (durable goods, metals, food processors)
 - > Wholesale distributors
 - > Medical device manufacturers (both early stage and mature)
 - > Telecommunications
 - > Software
- > Sarbanes-Oxley experience both as a consultant to management and as an external auditor.
- > Consultant to companies on accounting for complex transactions involving debt and equity (including derivatives) and acquisitions/consolidations.
- > Formerly the Regional Accounting Quality Assurance partner for the Minneapolis office of Baker Tilly.
- > Design of job costing systems for construction and manufacturing companies and creation of tools to gather information at production level and implement cost accounting solutions.
- > Development of forecasting models for client internal use, use in bank documents, and private placement memoranda.
- > Support for mergers & acquisitions activities, including due diligence work, deal structuring, and post-acquisition accounting. Recently recovered \$4 million in purchase price for a client through post-closing working capital audit and successful negotiation with sellers' representatives.
